

4, OPPORTUNITIES : & RISKS

A, Market analysis : • the market IS FUCKED → MONEY FIAT,
(advertising consultants) → TRUST IN REGULATORS = [NULL]
(are psychologists etc... [dark-pattern]) → lim capitalism = shit
→ ^{lim} communism = same shit

B, Customers : • kids to "science guys" ... public

C, Profit : • (does it matter? How much profit do ^{zB:} Garbage-collectors,
... possibly exorbitant high... Behinderten-betreuer, etc..
generate?)

D, Loss : • We could loose Lobbyists, ^{wrong} "experts" in politics, bought propaganda,
...
• Destabilise States - If people realize that they were lied to...
... "hell" might break loose ...

(BUT HOW FUCKING WORSE THAN NOW
COULD IT BE, ~~GLOBALLY~~ HUMANITARIAN
THOUGHT..)
